

Young Researcher Award

Call for Papers 2023

The European Association for Sociology of Sport is proud to announce the 15th Eass Young Researcher Award.

All submitted papers must be related to the European context as either the empirical bases or the thematic focus for the study (comparative perspectives are also accepted*).

The aim of the award is to facilitate the integration of outstanding graduate students and early career researchers into the European community of sociology of sport scholars. The award will be granted to a scholarly paper authored by an early-career researcher, which is deemed by a panel of judges to be of highest quality. The winning author will receive a monetary prize and will be invited to present the paper at the Annual Conference of the Eass, to be hosted in Budapest by the University of Physical Education Hungary on 30 May – 2 June 2023.

All participants will receive developmental feedback on their papers from the selection committee.
